Camden Sept 19, 1866.

CANCERS CAN BE CURED

DR. L. CHASE, (LATE OF PORTLAND), THE CELEBRATED INDIANOPATHY, CANCER & HUMOR DOCTOR,

HAVING purchased the residence of H A. Wood 54 Hammond Street, Bangor, Maine would be happy to be consulted by all who are afflicted with

Cancers! Cancer Humors Tumors, Scrofula, Leprosy Salt Rheum, Fits, Neuralgia, Bronchial Affections Catarrh, Rheumatism, Sick Headache, Liver Diseases, Female Weaknesses Piles, Diseases of the Throat and Lungs Diseases of the Kidneys Stiff Joints Gravel, Diabetes &c, &c

DR CHASE has practiced in his profession for sixteen years and in that time has spent two years in Florida and Cuba, for the purpose of gaining a correct knowledge of the most efficient remedies used by the various tribes of Indians of that country and by great expense has gained many valuable secrets which have heretofore been unknown to the world

In Cancer he claims superiority over all other Physicians of the age, for he never fails to perform a cure when taken in a proper stage.

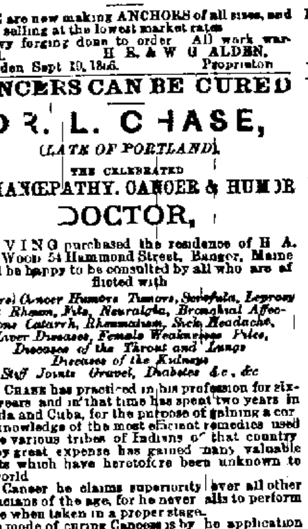

His mode of curing Cancers is by the application of a plaster which is strictly vegetable, and will have no effect upon the healthy flesh and in no case uses a knife as does Dr Greene, of Boston

He also boldly asserts that he can tell every individual their disease and location of their pains, and describe their feelings in almost every case, more minutely than they can possibly themselves

Dr Chase is not a Clairvoyant but conducts his examinations on a strictly scientific principle, and will challenge any professed medium for a test examination

Office hours from 9 A M to 8 P M Examinations free Office at residence No 54 Hammond Street.

THE MOST POPULAR COOKING STOVE

IN NEW ENGLAND.

The Model Cook for Wood or Coal.

THIS STOVE has now been before the public for five years, and thoroughly tested in all respects and to say that no stove yet made has given equal satisfaction is speaking within the bounds of truth while it is no disparagement to other Stoves

THAT THE MODEL COOK will do more work with a given amount of fuel than any other Stove made is a fixed fact

THE MODEL COOK will do more work for the reason that it has full one third more oven room than any other stove. Is more economical for the reason that the fire is made between the ovens *No heat is lost*

A more peculiar feature of the *Model Cook* is the addition of a *Ventilating Roasting Oven* so arranged that it can be used *separately* for roasting, or in connection with the large oven for baking By this process roasting and baking are entirely separated

This permanent extension gives an additional boiler hole and other room on the top of the stove while at the same time the stove occupies no more room on the floor than ordinary stoves

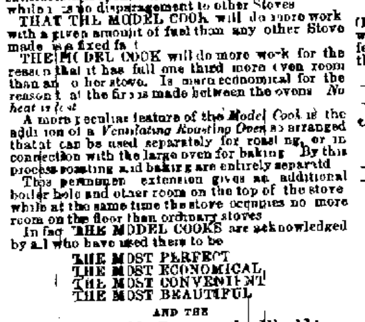

In fact THE MODEL COOKS are acknowledged by all who have used them to be

THE MOST PERFECT
THE MOST ECONOMICAL,
THE MOST CONVENIENT
THE MOST BEAUTIFUL
AND THE
Most Durable Stove in the World!

THE MODEL COOKS are manufactured at the rate of 3000 per year and the demand for them is constantly increasing

EVERY MODEL COOK sold, is warranted to give entire satisfaction in all respects or the stove will be taken back and the full price refunded

This stove is more extensively in use in New England *for cooking* than any other, and gives the best satisfaction. We are the exclusive agents for this Stove in Bangor and will be pleased to show to any who will call WOOD, BISHOP & CO.
mch 18 d&w1m 1 2 and 3 Broad Street

GRAY HEADED PEOPLE have their locks restored by it to the *dark lustrous silken tresses* of youth and are happy!

People whose heads are covered with *Dandruff* and *Humors* use it, and have clean coats and clear and healthy scalps!

BALD HEADED VETERANS have their remaining locks tightened, and the bare spots covered with a luxuriant growth of Hair, and dance for joy!

FELLOWS' ORIGINAL WORM LOZENGES.

WE can with confidence point to FELLOWS' WORM LOZENGES as the most perfect remedy for those troublesome pests.

INTESTINAL WORMS

After years of careful experiment, success has crowned our efforts and we now offer to the world a confection without a single fault, being safe convenient, effectual and pleasant. No injurious result can occur let them be used in whatever quantity Not a particle of calomel enters their composition They may be used without further preparation and at any time. Children will eagerly devour all you give them, and ask for more. They never fail in expelling Worms from their dwelling place, and they will always strengthen the weak and emaciated, even when he is not afflicted with worms.

Various remedies have from time to time, been recommended such as calomel oil of wormseed, turpentine, &c. producing dangerous and sometimes fatal consequences. After much research, study and experiments, embracing several years the proprietors of FELLOWS' WORM LOZENGES have succeeded in producing this remedy, free from all objections, and positively safe, pleasant and effectual They do not kill the worms, but act by making their dwelling-place disagreeable to them In order to assure consumers of the genuineness of these Lozenges, the analysis of Dr. A. A. HAYES State Assayer, is annexed.

"I have analysed the WORM LOZENGES prepared by Messrs FELLOWS & CO, and find that they are free from mercury and other metallic or mineral matter These Lozenges are skilfully compounded, pleasant to the taste, safe, yet sure and effectual in their action. Respectfully, A. A. HAYES, M D Assayer to the State of Mass"

Price 25 cents per Box: Five for $1.

American & Foreign Patents,

R. H. EDDY, SOLICITOR OF PATENTS,

Late Agent of the U S Patent Office, Washington, under the Act of 1837
No 78 State Street, (opposite Kilby street) Boston

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States also in Great Britain, France and other foreign countries Caveats, Specifications Bonds, Assignments and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar Assignments recorded in Washington *No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.*

During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, *every one* of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man more *competent and trustworthy,* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office
EDMUND BURKE" Late Commissioner of Patents

"Mr R. H EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART"

TO MILL OWNERS.

Hoisting & Canting Machine, FOR HOISTING LUMBER Upon Gang Edger Tables.

BY this machine lumber is hoisted upon EDGER TABLES to be edged, after passing through the Gang Saws by water or steam power, thereby saving all the hard lifting labor of edgers as is well known so arduous in saw mills.

Two men will edge from two to three thousand feet more lumber in a day with, than without, and do it much easier

Whether sawing large or small lumber, it hoists the largest as well as the smallest sticks quicker than can be done by hand, and with no more effort than in handling one inch boards. In fact this machine hoists the heaviest timber with ease and rapidity, that is surprising and gratifying to see

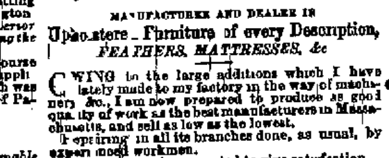

A great labor-saving machine has not been invented in a century, the value of which can never be computed in dollars and cents.

Every one who pays his money for this machine will receive back again its entire cost by its use in one season, and in most cases in one half that time

They are strong and durable machines, and will stand constant use for years.

Rights for sale by the inventor at Brewer Village, Maine. Further inquiries may be made of PALMER & JOHNSON Exchange Street Bangor, Me

[illegible]

New York Advertisements.

THE CENTRAL Pacific R. R. Co.,

Having Completed, Equipped and put in operation nearly One Hundred Miles of their Road, from Sacramento, California to within 12 Miles of the summit of the Sierra Nevada Mountains, continue to offer for sale, through us, their

FIRST MORTGAGE BONDS.

Issued in conformity with the Acts of Congress and the laws of the State of California, upon the division of their Road located in the State of California and extending one hundred and fifty six miles from Sacramento City to the California State line.

These Bonds have Thirty Years to run from July 1, 1865, and are secured by a

FIRST MORTGAGE,

Constituting an absolute prior lien on the portion of Road above named with all the Rights, Franchises, Equipments, &c, pertaining thereto

The amount of these First Mortgage Bonds to be issued per mile is limited by law to the amount of United States Bonds allowed and issued to aid the construction of the Road, and the Mortgage by which they are secured is DECLARED BY ACT OF CONGRESS TO CONSTITUTE A LIEN PRIOR AND SUPERIOR TO THAT OF THE UNITED STATES GOVERNMENT.

Interest at the rate of Six per cent. per Annum, payable Semi Annually, on the first days of January and July.

Principal and Interest payable in

UNITED STATES GOLD COIN,

in the City of New York

The price of the Bonds is fixed for the present at 95 per cent, and accrued interest from January at in Currency, the Company reserving the right to advance the price whenever it is their interest to do so The Road forms the Western part of the

MAIN TRUNK OF THE **Great National Pacific Railroad,**

authorised, adopted and aided by The United States Government.

It runs through the heart of the richest and most populous section of the State of California, connecting the

Extensive Mining Regions of Nevada, Utah and Idaho

With Sacramento and the Pacific Coast, from whence their supplies must be drawn, and the Earnings of the portion already running are very heavy, *and largely in excess of the interest upon the Company's Bonds.*

Having been for some time familiar with the operations of the Central Pacific Railroad Company, we are satisfied that they are conducted with rare ability and prudence and that the energetic and economical management of the Company's affairs entitles them to the confidence of Capitalists and of the public. We have carefully investigated the progress, resources, and prospects of the Road, and have the fullest confidence in its success and in the value and stability of the Company's securities. The attention of Trustees of Estates Institutions and individuals desiring a long safe and remunerative investment, is especially invited to these First Mortgage Bonds

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York or in Legal Tender Notes, National Bank Notes or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars by mail or otherwise, will receive punctual attention.

FISK & HATCH, Bankers & Dealers in Government Securities. No. 5 Nassau Street N Y

TELEGRAPHIC.

Despatches to the Evening Times.

Cable News from Europe—Grand Opening of the Paris Exposition.

NEW YORK, April 2

The Herald has the following:

Paris, April 1st. The Exposition opened today The day is observed as a holiday—At 11 a m; the doors of the buildings were opened Within and without the building there was a lamentable state of confusion—Everywhere debris Not one tenth of the goods were opened or arranged, but the French Department of course was the first in order, the next to that the Russian, and the third the English The American Department is one of the most incomplete, and the commissioners, exhibitors and Americans generally in the city are very dissatisfied with Commissioner Beckwith who appears totally inefficient.

The only department in operation is the Restaurants, but even here the Americans are behind hand The only goods damaged on the voyage were American

At one o'clock P M, the invited guests assembled in the Art Gallery, where America made a fine show, many fine pictures being exhibited and well hung, but the English display was much greater

By the time the Emperor arrived 5000 persons were inside On the outside, along the banks of the Seine and on all the hills and roads for miles around Paris at least 100,000 people had assembled. 8000 police men are on duty The Emperor and Empress came precisely at 2 P M The crowd outside the building were good natured but not demonstrative towards them No cheers greeted the imperial party! Preceded by chamberlains the party passed round the entire gallery nearly a mile long

Different national commissioners stood on the platforms over the sections allotted to their countries Turks, Japanese, Russians, Moroccans, Tunisians and Persians were there in full national costumes

The Emperor spoke a few words to each commission, but at the American depot he stopped with the Empress and bowed to the crowd who were cheering heartily Half an hour was consumed in this tour, then the cortege descended and passed through the art and a few other galleries, and at 3 P M, returned to the palace

The Exposition will not be ready until May One half of all the space is allotted to France and that is not complete The English are very strong in machinery, beating the Americans in that department—There is nothing like so many strangers here as expected The number of Americans is not much greatest than usual every season It is useless to come to see the Exposition before May

TOLEDO, April 2

At the election yesterday the entire republican ticket was successful by increased majority

NEW YORK, April 2

The Herald's Ireland correspondence says there will be another Fenian rising immediately after the intensely severe weather moderates Snow had fallen without a day's intermission for 15 days and nights

The Herald's Mexican correspondence says the Liberals have advanced so closely upon Vera Cruz that the Imperialists fire upon them from the walls

A surrender of the the city had been demanded and refused by Gen Gomez

It was reported Diaz had partially occupied Puebla.

The Herald's Lima, Peru, correspondence says

There is a prospect of speedy settlement with Spain, as it was believed Chili was about to break the alliance and make terms for herself If this was done it was feared there would be a war between Peru and Chili

The villages of Bolivia had been visited by a terrific thunderstorm, destroying more than twenty horses and killing one hundred people

The Herald's Panama correspondence says—

The required extension of the Panama railroad charter will probably be granted

CINCINNATI, April 2

Full returns from all the wards give Chas F Wilstack (Union) for Mayor, 4400 maj The average majority for the whole Union ticket is about 5000, showing a Union gain of about 1500 over the election last fall For the City Council 14 Union men and five democrats are elected, showing a gain of one democratic councilman The new council will stand 26 unionists to 10 democrats The total vote of the city was about 124,000, or 6000 less than last year

ST LOUIS, April 2.

The Democrat's correspondent at Junction City, Kan, says

Gen Hancock's Indian expedition, 15,000 strong, was at Selma, on Saturday Gen Hancock proposes to go to Fort Laramie on the Santa Fe road where he will invite the chiefs of hostile tribes to council to discuss of peace If they fail to come to terms he will immediately commence a vigorous war against them

Advices from Utah and Colorado say the weather was intensely cold in March, in some locations the mercury falling 41 deg below zero The snow was very deep and disastrous floods are looked for in the mountain districts A large number of horses and cattle have been frozen to death

NEW AND INGENIOUS SWINDLE An ingenious swindle has been put in operation Yesterday the proprietor of a grocery store in this city received a letter, of which the following is a copy:

"Dear Sir,—Seeing your name in the New York Directory, and hoping you are strictly confidential, I have sent a sample of this scrip, which I will let you have on these reasonable terms:

Ten dollars' worth for five dollars, fifteen dollars' worth for eight dollars, thirty dollars' worth for fifteen dollars, and fifty dollars' worth for twenty dollars Enclosed you will see the scrip Address Charles W Norris, Boston, Mass."

At the top of the page was pinned a genuine fifty cent fractional currency note. The store-keeper supposed that the money was counterfeit, and as he was strictly honest, he sent it to Superintendent Kennedy The Superintendent believed the note was good It was sent to the sub-treasury office and there pronounced genuine The object of the man Norris was not to sell counterfeit money, but to obtain an order from the groceryman, accompanied by the requisite funds, and then not to fill the order.—New York Commercial Advertiser

In this case there would be little sympathy with the man who should be swindled. It would be "diamond cut diamond," and a living illustration that honesty is the best policy.

New Publications.

JOHNSON'S NEW ILLUSTRATED FAMILY ATLAS OF THE WORLD From a more careful examination of this work, we have no hesitation in saying that we believe it superior, in amount and variety of information, to any other ever published in this country, and in the apparent completeness of its maps, in elegance of execution, and in extent and variety of statistical information contained The size of "Johnson's New Illustrated Family Atlas," is that known as Imperial Folio The work contains over one hundred maps and plans, and nearly three hundred illustrations or pictures Among the attractive features of the work, the maps, plans and pictorial illustrations occupy a prominent place They are to the eye what the reading or text is to the understanding—giving locality and form to objects, and completing descriptions which, without such aid, would fail as a vehicle for exact representation

Preceding the general maps and descriptive matter in the work, is one of the best illustrated and most concise treatises on Physical Geography ever published Its is new feature in a work of this kind, but of the greatest importance to every intelligent mind, and must sooner or later command universal attention Accompanying this treatise, are a number of finely executed steel plate maps, prepared expressly to go with the treatise Lieut. Maury of Washington, and Messrs Milner and Peterman of London have furnished much valuable information for this part of the work

The general maps in the Atlas are upon a larger scale than the maps in other works of the kind, and are nearly all upon double sheets extending across two pages of the work thereby connecting two or more States upon the same sheet and scale, for the purpose of correctly showing the relative size and position that one State bears to the other, and the routes into and out of the States so connected, by stages, steamboats, or railroads

The maps have been carefully compiled, drawn, and engraved upon steel plates under the superindence of Messrs J H Colton and A J Johnson, whose Atlases and maps have been for years standard works of their kind in America.

The maps contain besides the usual geographical outlines, the sub-divisions of every State in the United States into counties, and the counties into townships They show the true representation of all the network of internal improvements, the lines of public surveys, and a great mass of other and valuable information nowhere to be found in any other Atlas or upon any map, and in the southern States, and the new States and Territories being based upon the latest surveys, include all the points that have recently be come important or noteworthy

The arrangement for providing new maps as fast as the changes in our country may require them, the full alphebetical index of the towns, villages, and post offices in our country, and the complete chronolgical history of the Rebellion—a table of great value for reference—are features especially worthy of mention

Among the valuable foreign maps in this great work, we notice a very finely executed one of Prussia and Germany, showing that part of the German States recently wrested from the control of Austria, also a splendid map of Italy showing Austrian Italy which has recently been annexed to that country in consequence of the late war between Prussia and Austria.

The map of Palestine or the Holy Land in this work, is the best we have ever seen All the divisions and places mentioned in the Bible, of this land, are here distinctly represented. The map of Africa shows the most recent explorations of Drs Barth and Livingstone, enabling us to trace the lakes and rivers of what was termed by former geographers, the "Unexplored Regions, of Central Africa This map also shows the route of Messrs Grant and Speke in the years 1861 and 1862, and the full details of their explorations and discovery of the source of the Nile, and now for the first time shown upon any general map The last map in this great work, though not least, is a "Bible map," the most important of all to those interested in the study of Ancient History or the Bible It represents the Roman Empire as it existed in the days of Christ and the apostles

The text of this work contains a general Historical and Statistics view of all the principal countries of the world. Text prepared by Richard Swainson Fisher, M D, author of "Colton's Atlas of the World," the "Gazetteer of the United States" and other statistical works, and late editor of the "Journal of the American Geographical and Statistical Society' The experience and ability of this distinguished author are a sufficient guarantee for the reliability and accuracy of whatever he has prepared for this valuable work. This work is sold only by specially appointed agents, and at one price

Mr Horace Stacy the agent for this city, is now stopping at the Bangor House, and will call upon our citizens generally to give them an opportunity to examine the work in detail We bespeak for this valuable work that liberal patronage, to which its merits justly entitle it.

REFORMATION IN TEXAS Incredible as it may appear, the La Grange (Texas) New Era actually believes the moral condition of that community is improving, and thus expresses its convictions

We are candidly of the belief that the religious tone of our community is being gradually elevated. At the close of the war we had irregular services in our church which continued to be the case for quite a length of time. But now the Methodists have their regular exercises with a stationed preacher, the Sunday school is very flourishing The Episcopalians, until lately, have had service every third Sunday The Presbyterians have religious worship on the first Sunday in every month, while the Germans, on the last Sunday in the month, have worship conducted in their own language Then the negroes show a constant religious fervor, and are striving to build a house in which to worship with the devotion of the whites It is pleasing to be able to mention this, and we sincerely trust that the good work will take no backward step, but will steadily grow and increase, until there will be no occasion to report even minor disturbances, much less deeds of blood and atrocity.

Some liquor seized by the State constables in Middlesex county, Mass., was analyzed a short time since, and on a bottle that was lettered in gilt, "D. Brandy," 20 cents per glass, the chemist put the following label, "Unable to decide what the manufacturer of this article intended to imitate. It contains more or less camphene." He also added as a private mark a skull and cross bones.

Whig & Courier.

WHEELER & LYNDE, PROPRIETORS

WM. H. WHEELER, EDITOR.

Business letters should be addressed to the Publishers, "Wheeler & Lynde."

WEDNESDAY, APRIL 3, 1867.

THE CONNECTICUT ELECTION. It appears that the Democrats with the aid of President Johnson, and by the use of unlimited quantities of money freely used, by the four or five nabobs who were their principal candidates, have been able to elect Mr English by three or four hundred majority. (The returns were not full at this writing, and the majority may be greater.)

This result is no more than we have apprehended all along. Indeed the majority for English is much more meagre than we supposed it might be. When we considered that many of the Republicans were last year so false to their own principles—to Equal and Exact Justice—as to refuse that freedom of suffrage to their own fellow citizens which they claimed for the citizens of South Carolina—we saw that defeat was not only *deserved* by them but was every way probable. To say nothing about the increased strength the party in Connecticut would have *gained* if all its members had been honest and true enough to principle to conquer their own prejudices it will be seen at once that the failure even of a small portion of the party to act rightly and consistently has had, and rightly had, a sensible moral effect *against* us—an effect which we trust will have a salutary operation hereafter.

When we add to this cause of defeat, the immense sums of money used by Mr English and his friends—openly and avowedly used—and much of it undoubtedly in direct bribery—with the outside issues, such as eight hour laws, the liquor question, &c.—the only surprise is that English's majority was not thousands where it is hundreds. As it is, his entire gain in the State from last year is probably less than a thousand, and of this almost the whole is in a few of the large places.

The Legislature is still Republican.

The Republicans have majorities in two of the four Congressional Districts—although in one of them (Barnum's) they lose the member by running two candidates—thus enabling the democrats to get three out of the four members—a loss which is of no general consequence in the present strong Congress, but which is nevertheless unpleasant.

The result of the Connecticut election this time may certainly be said to have been brought about by "English gold," to which we used to attribute our defeats in old Whig and protection times.

YELLOW FEVER. The N Y Sun says that yellow fever now prevails in the Isthmus of Panama, and that a large number of persons, both travelers and residents, have fallen victims to its fatal influence. This being the case, it is of importance that quarantine authorities should be on the alert for the approach of so terrible a pestilence. The yellow fever is not confined to Southern latitudes. Early in the present century New York was several times visited severely by that disease, which, however has not been epidemic there since the year 1822. The steamers of the Pacific Mail Company are constantly arriving, directly from the region where yellow fever is raging, and it is said that the quarantine requirements are at present a mere formality. A visitation of yellow fever would be more dreadful than one of cholera.

FORT C F SMITH SAFE. Rumors were recently afloat that Fort C F Smith had been attacked by Indians, captured and its garrison massacred, but on the authority of a letter from an officer with Gen. Augur it appears that the fort is safe after a severe contest with the savages, whose assault was repulsed, and the garrison saved from the fate which overtook that of Fort Buford last January.

FEARS OF A FAMINE IN PARIS. Letters from Paris represent the Emperor as uneasy at the frightful rapidity with which prices are rising, so great is the rapacity of hotel keepers, restaurateurs and shopkeepers, in view of the coming exhibition. The poorer classes, who have nothing to gain by the affair, are terrified by the famine prices for food that are coming upon them, and unpleasant murmurs are heard at Quartier St Antoine.

The license law hearing before the committee of the Massachusetts Legislature was concluded on Saturday and the closing arguments for the remonstrants were to be made yesterday by Rev Mr Miner and Wm B Spooner Esq., and for the petitioners today by Ex-Governor Andrew. It is not supposed that the committee will grant a bill. If they do, it has no chance of passing the Legislature, if recent statements are correct.

A singular mining accident is reported in the Parrengower (Cal) Times as having occurred on P P Wood & Co's claim, at Lincett's Relief. The men on the top were busy hauling up stuff. In the descending bucket they placed two kegs of gunpowder and about half a bucket full of drills. The bucket, on coming in contact with the ascending one, was overturned, drills and powder going to the bottom. The drills, on their way down the shaft, struck fire, the powder ignited, and a tremendous explosion took place. Eight men were busy in the different workings, four of them in the highest level, were hauled up, pale with terror, and said the four below were killed.—This, however, fortunately turned out not to be the case. Strange to say, not one of them was hurt, which may be accounted for by the distance they were working in the drives from the bottom of the shaft. They were, however, nearly stifled.

THE CASES OF TRICHINA SPIRALIS IN SPRINGFIELD. The members of Mr Hall's family, who were sick with this terrible disease are now considered out of danger. The daughter [illegible] who died, was buried Wednesday. Mrs. Dillilee, who was at the home of the [illegible] on Hickory street, and ate also of the same, has been sick since that time, though she was at one time well enough to go to Albany, where she now is.

The ham of which the afflicted persons ate has been examined microscopically, and proves to be infested with the trichinae. A piece of the [illegible] of one of the limbs of the deceased girl has also been examined with the microscope, and proves to be full of the trichinae. [illegible]

For the Daily Whig.

Extract of a Letter from Kansas.

Fort Scott, Kansas, March 1[illegible].

Dear ——

Having been in Kansas about a year, and in Fort Scott nearly as long, besides, taking a hint from your last letter, I thought it advisable to say a few words about this section of Uncle Sam's wide domain, not forgetting this bustling city of former *border ruffian* proclivities. Fort Scott was of no great account previous to 1860, save and except for a government post, where in Pierce and Buchanan times, some $500,000 or $800,000 were expended for the benefit of pro slavery favorites. Now, the tables are turned, advocates of slavery in this region are rather scarce, and "growing beautifully less"—here and there one can be found, who goes by the doubtful name of *conservative*.

Some of the government buildings are still standing, quite a city has grown up in the vicinity, and everything around the spot looks fresh and lovely. This is said to be the fourth place, in point of size, in the young and vigorous State of Kansas. There are many neat and substantial dwellings here, and the warehouses and stores are capacious and well filled with merchandise.—Preparations are being made to erect a number of buildings the ensuing summer. Every one seems to be busy, and a looker on will rarely see an idle person. The hotel accommodations are ample, and the fare is probably as low as the "times will admit." Fort Scott might be called a church going place, as there are here six or eight religious societies, three nice houses of public worship are already occupied, and three more are to be in readiness by next autumn. Fort Scott is the shire town of Bourbon County, and the necessary public buildings are about being erected. The population of this county is some 20,000 to 25,000, and its taxable property is estimated at about $6,000,000.

This city is pleasantly situated on the Marmiton River, a branch of the Osage. As this is the principal town for many miles around, trade is drawn from a great distance. There is a fine woolen factory here, in full operation, where cloths are sheared and finished as nicely as at the factories in the East. The "Fort Scott Flouring Mills" have four runs of burr stones and furnish a market for the excellent grain grown in this State, for a distance of seventy five or eighty miles. There is also a machine shop here, where all kinds of repairs are done to boilers and machinery. I learn that there are also some steam saw and grist mills not far from the city, but am not certain of the fact. At no far distant day, Fort Scott must inevitably be a large manufacturing city, for the principal men here are possessed of indomitable energy and several are from the East.

It is expected that the "Missouri River, Fort Scott & Gulf Railroad" will be finished to Fort Scott in a year or so, when it will be pushed South to the Texas line. The "Sedalia & Fort Scott Railroad" will be put under contract this spring. Fort Scott is on the direct line from St Louis to Santa Fe, via the city of Sedalia on the "Missouri Pacific Railroad." The city of Chicago, large and wealthy as she is, like Oliver Twist "asking for more," contemplates building a Railroad to draw the trade of Kansas, Texas and the further Southwest to her very doors. There is scarcely a doubt that, before the expiration of three years, all of these railroads will be in running order, and who can foretell the future of this section of Kansas?

The climate in this portion of the State is considered to be very healthy, and as there are no marshes and stagnant pools here, fever and ague are unknown. The summers are no hotter than they are at times, in the New England States. The winters are mild—stock graze at large during the year—almost any one can work in the open air throughout the winter. I have seen boys playing games of ball, day after day from December to March. We have had but four or five *flurries* of snow the past winter which the sun soon dissipated.

Nearly every acre of land in Bourbon County is fit for cultivation. The face of the country is high rolling prairie, covered with a thick growth of prairie grass which cattle greatly admire—water is abundant and pure. Nature has adapted this country especially for stock, all kinds of which flourish remarkably here, the boundless grass of the prairies, and the mild winters, make this branch of husbandry very profitable. Fruit of almost every name will grow here, with very little cultivation—and nowhere is the climate so good for grape culture as in this country. Peaches, apples and pears seldom or never fail. Farms and small tracts of land, at present can be purchased at reasonable prices and on good terms, and any man of small means, who is disposed to work, can readily secure to himself a comfortable home.

Limestone, sandstone, marble, coal, and iron ore of the finest quality are found here, in great abundance. Brick is manufactured in this vicinity, and furnished at $8 per thousand for No 1.

I had almost forgotten to say that the schools of Fort Scott cannot be surpassed in the West. This city can boast of two ably conducted newspapers, which have a large circulation, namely—the "Monitor" and the "Press," each published weekly.

I would not advise a healthy man in good circumstances, to come here, thinking to better his condition—but I would say to those persons who have not much of "this world's goods," who are desirous of seeking a more even and healthy climate and are willing to rough it a while, and live no longer in idleness or on their relations, to emigrate hither—there is room enough for all.

Respectfully yours, H.

The following was received too late Monday night for publication yesterday:

BELFAST, April 1, 1867.

To the Editor of the Daily Whig:

Our citizens feel that Mr Cushing of Winterport, at the late Railroad meeting at your place, made statements prejudicial to this city and its harbor, and gave impressions in reference to both this harbor and Winterport, not warranted by facts; and in reply they instruct me to say, that this winter, steamboats and sailing vessels could come to our wharves every day, while the Chesapeake Bay, New York and Boston and Portland harbors have been frozen over for several days; and that whenever any ice is found in this harbor, all the harbors on the coast, from Baltimore to Calais, are more affected by ice than our own harbor, and that the "narrows" below Winterport are frequently clogged with ice for days, and sometimes weeks, in the winter, to an extent to prevent vessels from passing up to Winterport, or from getting out the Penobscot river, from Bucksport [illegible]

[illegible]

there has been some ice between this city and Long Island, but that at such times not only was Penobscot river closed up, but also every harbor south of us, Baltimore included.

Allow me to suggest, that I see no occasion for any rivalry in our railroad enterprises, between Bangor, Winterport, and Belfast. I hope, from the inmost recesses of my heart to live to see them all succeed. The country around Moosehead Lake is large and fertile enough to contain a larger population than we now have in the entire State; and it needs to be peopled by means of those great inlets, in the construction of which we are about to engage. I hope to see our friends on the Kennebec extend their road to this great section of our State, yet comparatively unpeopled, and to see our friends in Bangor do the same thing. I hope we shall have their help to build the road from Guilford to the Lake, and own it together, and use it for the accommodation of both cities, and if Bangor can aid our neighbors in Winterport to build their road, Belfast will be gratified, because they are our neighbors and make a part of our county, and they pay a part of our county taxes, and the growth of any town on the Penobscot river or Bay adds to the wealth and power of our section of the State. And allow me further to say to our Bangor friends, that as a citizen of Belfast, I should be glad to see Bangor construct a road from Milford via Milo, to Dover or Guilford with a branch to Brownville, because in the winter season, a portion of the business of the section of country through which it would pass would come to this city, for the reasons that several citizens of Bangor would come to our city each winter to buy produce in our market to ship to Boston and other ports—simply because the Penobscot river is frozen over. We welcome these gentlemen among us, and when our Railroad is completed to Newport, we expect to see and to welcome many more of them.

Respectfully,
A G JEWETT, Mayor.

A terrible railroad accident has occurred on the Moscow line in Russia. In turning a sharp curve a part of the train ran off the rails, and eight carriages were precipitated down an embankment fifty feet high. About thirty persons were killed and more than one hundred received serious injuries.

A FRENCH VIEW OF FENIANISM. We extract the following from an article in the *Journal des Debats*, from the pen of John Lemoinne: "The English Ministers declare in the Chambers every day that the Irish insurrection is extinguished, and that the troops which the Government have at their disposal are more than sufficient to suppress any serious movement, and yet the revolt is not put down, and will not be put down for a long time to come. It is always ready to recommence. No doubt the regular troops who garrison Ireland will win the day, as in all conquered countries when the enemy presents himself, but he will not present himself. The tactics of the insurgents are quite clear, and they have long since indicated them—to avoid any general action in which they would be infallibly crushed, but to weary the troops out by a mountainous and partisan warfare, dispersing in one place only to reappear in another, and keeping the authorities in a state of constant watchfulness and panic. The English Government is much more embarrassed than it chooses to acknowledge by this impalpable and incomprehensible movement. It has also the strength necessary to put down disorder, but not enough to re establish order. Do what it will, say what it will, order does not reign in that eternal Warsaw of Ireland.—The Fenian revolt is not an agitation for reform, which may be satisfied by a Reform Bill, nor a workingman's strike, which may be ended by a compromise or by weariness. It is not a political movement which may be terminated by the admission of a new class to the privileges of old classes. It is an undistinguished revolutionary and social movement, which has for its principle a change in the form of government, and for its object the transmission of property. It is as hostile to the Catholic Church as to the English Government. It is an agrarian revolution in the full meaning of the term.—The Fenians are not an offspring without parents. They cannot be called *prolem sine matre natam*. Their ancestors are United Irishmen, Whiteboys, Hearts of Oak, &c. Their mother is Misery, with her *cortege* of Famine, Fever and Pestilence, and a still more prolific mother, which is History."

EBENEZER WILLIAMS, THE MURDERER. The matter of taking Williams to the Insane Hospital came up to day before Judge Tapley, at the instance of his guardian, and it was decided that the court was not authorized to act in the matter as no medical action had been taken, and so, by common consent, it plainly appearing that the man is insane and therefore not accountable for the crime, he will be taken to the Asylum by his friends, and at the charge of his estate.—[Star.

BOSTON & KENNEBEC STEAMSHIP CO. A bill was introduced in the Massachusetts Legislature, recently, to incorporate Isaac Rich, Andrew Pierce, Jr, Freeman Cobb, Waldo Adams, and others, as a steamship company, with $1,000,000 capital, to run steamboats to Bath, Gardiner Hallowell and other ports for Boston. This line is substantially already in operation, with the steamers Star of the East, Eastern Queen and Daniel Webster, and another boat will probably be added next year. The incorporation is only asked for purposes of convenience.

[By Cable to the Associated Press.]

London, April 1. Regret is generally expressed by the press and in political circles at the proposed sale of Russian possessions in North America to the United States.

The figures of the budget laid before the House of Commons show that the revenue of Great Britain for the last fiscal year exceeds the expenditures by £25,000,000.

The Brazilian mail steamer from Rio Janeiro has arrived at Lisbon. She brings a report that an American man of war had gone up the Paraguay river bearing a proposition from the allied South American powers containing the basis of a negotiation for peace to be submitted to President Lopez.

Liverpool, April 1. The steamship Scarsawa, from the Clyde, bound for Boston, sank at sea March 20, during a severe storm.

Brussels, April 1. The appearance of the anti Prussian placards in the streets of Luxembourg creates much excitement in France and Germany. No answer has yet been made to the complaint of the Prussian commander, and pending the settlement of the affair the irritation is increasing on both sides of the Rhine.

Frankfort, April 1. U S bonds have declined ¼, and close at at 78.

Nine-tenths of all hair preparations contain injurious substances which sooner or later will entirely destroy the healthy growth of the hair. The best chemists testify that "Barrett's Vegetable Hair Restorative" possesses no injurious substances whatever that can by any possibility unfavorably affect the hair or scalp, but that on the contrary, its ingredients are the best known to science for the growth, beauty and preservation of the hair, and a healthful preservation of the scalp. It is sold by all Druggists.

HEAR REASON! STRENGTHEN THE DEFENCES! When a garrison apprehends an attack from an outside enemy, what does it do? It STRENGTHENS THE DEFENCES. The human system, at this period of the year, is beleaguered by morbid influences.—The atmosphere is full of them. Every change of weather lays the feeble open to their attacks. What is to be done in order to baffle these unseen, but ever active, foes? STRENGTHEN THE DEFENCES.—Do you ask how? The answer is simple—the means within the reach of all. Reinforce the vital organs and the nervous system with HOSTETTER'S BITTERS. Tone the stomach, regulate the bowels, rouse the sluggish liver, cheer the spirits, enrich and purify the vital current, with HOSTETTER'S BITTERS. That's the way to STRENGTHEN THE DEFENCES and render the capital of health impregnable. If you wish to escape bilious headaches, intermittent fever, indigestion, and nervous visitations—to enjoy, in all its plenitude, the blessings of "a sound mind in a sound body," use this incomparable preventive and restorative. It preserves health in the healthy, and renews it in the weak and ailing. apr 2 snStawd&w 2w

A Cough, a Cold, or A Sore Throat, REQUIRES IMMEDIATE ATTENTION, AND SHOULD BE CHECKED. IF ALLOWED TO CONTINUE, *Irritation of the Lungs, a Permanent Throat Disease, or Consumption* IS OFTEN THE RESULT. BROWN'S BRONCHIAL TROCHES HAVING A DIRECT INFLUENCE TO THE PARTS, GIVE IMMEDIATE RELIEF. For Bronchitis, Asthma, Catarrh, Consumptive and Throat Diseases, TROCHES ARE USED WITH ALWAYS GOOD SUCCESS. SINGERS AND PUBLIC SPEAKERS will find Troches useful in clearing the voice when taken before Singing or Speaking, and relieving the throat after an unusual exertion of the vocal organs. The Troches are recommended and prescribed by Physicians, and have had testimonials from eminent men throughout the country. Being an article of true merit, and having proved their efficacy by a test of many years, each year finds them in new localities in various parts of the world, and the Troches are universally pronounced better than other articles. OBTAIN only "BROWN'S BRONCHIAL TROCHES," and do not take any of the Worthless Imitations that may be offered. SOLD EVERYWHERE. Nov 26 4md&w

CHORAL FESTIVAL.

A CHORAL FESTIVAL will be held at Norombega Hall Bangor, commencing on TUESDAY, April 23d at 9 A. M., and continuing *four days.* Singers and Musical people from all parts of the State are invited.

The daily sessions will be devoted to the practice of Choruses from the Oratorio of "The Messiah," and Rossini's "Stabat Mater."

The following talent has been engaged for the Festival:

SOLOISTS.
Miss J. E. Houston, Soprano, of Boston.
Mrs. J. S. Cary, Contralto, "
Mr. James Whitney, Tenore, "
Mr. M. W. Whitney, Basso, "

ORCHESTRA.
The Mendelssohn Quintette Club, of Boston, with assistance of Mr A. Stein, Double Bass.

THREE CONCERTS WILL BE GIVEN.
Wednesday Evening, *Miscellaneous Concert.*
Thursday Evening, *Oratorio of 'The Messiah.'*
Friday Evening, *Rossini's "Stabat Mater."*

And three Public Rehearsals or Matinees.

Each with full chorus, the Soloists and Quintette Club.

SEASON TICKETS—To singers $1.50; to visitors, with secured seats at the Concerts, $2.00 and $1.50 according to location.

CONCERT TICKETS, with secured seats, 50 cents.—Rehearsal 25 cents.

Seats may be secured by mail or otherwise, one week in advance. By the courtesy of the Superintendents and Agents of the Maine Central, Portland and Kennebec, and Oldtown R Roads, steamer Katahdin, and up-river steamboats to Winn, &c., free return tickets will be allowed to those who attend the Festival. No effort will be spared to make this Festival worthy the attention of the best musical talent of the State.

A large chorus is already engaged in rehearsal.

Dr. Tebbet's Physiological Hair Regenerator. The wonderful popularity of this Preparation is unprecedented. It is becoming the standard article over everything of the kind, and is the only unobjectionable hair preparation in use.
It positively restores white, gray and faded hair. It prevents hair from falling off, and often Reproduces a new growth on bald heads. Is free from all disagreeable odor. It does not soil the finest fabric or skin. Frees the head from humor and dandruff. Has no equal as a dressing. Without it no toilet is complete. Agents—B F BRADBURY, Bangor. FOLSOM & CO., Oldtown. dec 11 d&w6m

SCHENCK'S MANDRAKE PILL. *A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.*

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses we present a brief DESCRIPTION OF THE HUMAN LIVER and its functions which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries—it passes through the flesh taking up all impurities in its progress; then the stream of blood flows backward through the veins and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ the liver is diseased. It is for that reason that "regular physicians" rarely cure consumption.—They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr Schenck's *Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,* will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

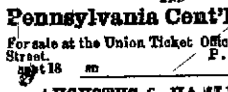

A volume would be required to give a brief account of the remarkable cures performed by Dr Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 38 Hanover street, Boston from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

GEO C GOODWIN & CO., 38 Hanover street, Agents for Boston. For sale by all druggists. nov 23 en eithwly

Hoyt's Illuminating Oil

A NEW ILLUMINATING OIL.—The best and safest oil for burning in the household is the new Illuminating Oil secured to Mr Edwin Hoyt, of Stamford, by caveat filed at Washington. Its advantages over kerosene are at once apparent and those who are accustomed to burn kerosene will be glad to know that they will no longer be exposed to danger by its explosive nature. The new oil has neither smoke nor does it emit a disagreeable odor and will give a more brilliant light than any other known chemical. We have seen it in use and would recommend some enterprising man to purchase the right for this vicinity.—*Bridgeport Standard.*

[COPY.]
OFFICE OF STATE ASSAYER, PORTLAND, Me., March 6th, 1867.

This is to certify that I have this day tested a sample of "*Hoyt's Improved Illuminating Oil.*" The Oil was treated as in all other trials which I have made of similar substances.

At 110° flame was applied to the mouth of the tube, but there was not sufficient evolution of vapor to support combustion. At 160° the fluid was boiling, and the vapor burned tranquilly and gently.

The result of this test would indicate that the Oil in question is a safe preparation for use in families for household illumination.
(Signed) H. T CUMMINGS, Assayer. apr 3

CROUP! CROUP! DR. HOOKER'S Cough and Croup Syrup, CURES CROUP, COUGHS FROM COLDS, Hoarseness, Catarrhal Coughs, COUGHS FROM HUMORS AND BRONCHIAL COUGHS, and gives speedy relief in Whooping Coughs and Asthma, and often cures the latter, and invariably shortens the run of the former.

Children are liable to be attacked with Croup without a moment's warning. It is therefore, important that every family should have constantly at hand some simple and pleasant, yet efficacious remedy for the cure of this painful and too often fatal disease. Such a remedy is Dr. Hooker's Cough and Croup Syrup.

Fortieth Congress.

EXTRA SESSION

Senate

WASHINGTON, April 2.

Mr Johnson rose to a privileged question He defended Mr Thomas, Senator elect from Maryland, from the charge contained in the report made by the Bank of Commerce of New York to its stockholders, dated Mar 12, 1864, in which it was said that Mr Thomas, while Secretary of the Treasury in 1860, had failed to provide for the interest on the public debt falling due Jan 1, in that year. The report adds

"There was evidently a wicked and treasonable plot to disgrace the credit of the United States by default in the payment of the interest on the stocks, by neglecting to provide for the officers of the army and navy, and the civil and diplomatic list, including the salaries due members of Congress then in session."

He detailed the history of Mr Thomas' connection with the Buchanan administration, and said that when he came into the Department he found the Treasury almost depleted, and that there was hardly money enough to meet the daily wants of the Government. Congress authorized a loan of twelve millions. When the bids were opened on the 27th and 28th of December, he found that the Bank of Commerce had offered to take a million and a half at a discount of 12 per cent. At that time the public debt did not exceed seventy millions. He hesitated to accede to the exorbitant terms. Before he had decided, the cashier of the Bank of the Metropolis, Richard Smith, brought to the Department a dispatch from the Bank of Commerce, saying that it could take all the loan at the same rate—12 per cent. This made him hesitate. He thought it a very plain speculation, but rather than run the hazard of having the Government's credit suffer from a failure to meet its obligations, he agreed to receive the bid, and the Bank was so advised

Mr Johnson then alluded to Mr. Thomas correspondence with Mr Cisco on that subject, by which it appeared that the Bank at that time was a debtor to the United States in the sum of five million dollars. The Secretary of the Treasury successfully arranged for the payment of the interest falling due in January, 1861, at Baltimore, Charleston Savannah, New Orleans, and St. Louis, and it was punctually paid

It would be seen from official data that the Bank of Commerce, which claimed the credit of supplying his deficiency, that it did no more than comply with the terms of an oppressive contract, which the necessities of the Government had forced it to enter into. The statement of the Bank was not supported by a particle of evidence.

Mr Johnson submitted a letter of Secretary McCulloch, saying that nothing appears in the record of the Department showing want of fidelity on the part of Mr Thomas

Mr Johnson also had a letter read from Mr Thomas denying the charges and asked through Mr Johnson a full investigation of the whole subject by the Senate.

After further debate Mr Thomas letter was referred to the Committee on the Judiciary

The Senate then went into an executive session

SOIREE FANTASTIQUE We call attention to the advertisement of an entertainment, to be given at Norombega Hall, on Wednesday evening, by Prof Efie, a talented young English "magician." He has recently given a private entertainment (as before mentioned) to the satisfaction of a large company who were present, many of whom have desired him to appear in public and give an exhibition at Norombega. The greatest fault of the young Professor is his rare modesty. A gentleman present on Saturday evening said, "This is the first entertainment of the kind that I ever witnessed where there was more of performance than pretension"—and he was about right. The tricks are very well done indeed—as well as any that we have seen from the most noted "Professors"—but there is very little talking for effect.

ON TRIAL

Martin O'Brien vs Samuel N. Hodsdon For kindling a fire on defendant's own land at an unsuitable time, by which plaintiff's land was injured. Damages laid at $500

A. Sanborn McCrillis

Subscriptions to the Railroad.

The committee appointed at the Railroad meeting to have in charge the raising of subscriptions in this county to the stock of the Bangor & Piscataquis Railroad Co. will enter this morning upon their duties, and we bespeak for them a cordial reception and generous subscription

These gentlemen are our chosen agents to receive subscriptions, and we trust that no man will need urging, but that a simple presentation of the books will be all that is required. Let every man who is able to invest subscribe according to his ability. Let no man hide himself behind that meanest of all excuses, that the road will be built whether he subscribes or not. Every citizen should be ambitious to do something towards this enterprise. The management and direction of the Company will be entirely in the hands of the stockholders to the stock

The books close on the 20th inst, and on the 22d the corporators meet and turn over the organization to the stockholders who now subscribe. Piscataquis is awake—Men of Bangor, do your duty,—and our city enters upon a new career of enterprise, thrift, and permanent prosperity

—There is still a great body of snow on the ground in the northern and eastern part of the State. A friend informs us that in Piscataquis county the snow, a few days since, was over four feet deep in the woods, and from two and a half to three feet in the open country—and we suppose it is the same in all the northern part of the State. With in a few miles of this city it is from fifteen to eighteen inches deep, and very heavy—The weather for this past few days, however, has been reducing it

—The Grand Lodge of the S of T holds its annual session in this city next week—commencing on Tuesday at 10 A M, we believe. We have not learned the place of meeting. Free return tickets will be issued to all delegates who come over the Maine Central or Kennebec & Portland railroads

—The piers for the railroad bridge at this city are now completed, and ready for the superstructure, which will be placed upon them soon after the river opens

BENJAMIN PLUMMER Mr Benjamin Plummer died at his residence in this city yesterday aged sixty years. He was born in Nobleboro, Me., Jan 7, 1807, and came to Bangor in 1825, at the age of eighteen years. In 1832, Mr Plummer entered into a copartnership for carrying on the hardware business with Levi Cram, and continued in the branch of business until 1838

In 1846, he became Secretary and Treasurer of that old and highly honorable corporation, the Penobscot Mutual Fire Insurance Company, and to his energy, business ability, integrity and urbanity in transacting business, may be attributed much of the good name and success which attaches to that Company

Gradually, Mr. Plummer assumed agencies of first class Fire and Life Insurance Companies, until about two years since when the Life and Stock and Fire insurance business absorbed so much time that Mr Plummer declined a re-election to the respective positions which he had so long filled in the Penobscot Mutual Company, and devoted himself exclusively to the branch of insurance above referred to, and succeeded in building up, perhaps, the largest Insurance Agency in the State.

Mr. Plummer possessed a rare adaptation to his business. Endowed with a superior judgment as to the value of insurable property, and the nature of the risks, he had the capacity to comprehend and adjust a loss with such strict regard to the rules and formulas of the profession as to satisfy the companies which he represented, and with such manifest fairness and sympathy as to command the respect and approval of the insured.

In social and domestic circles he was always generous, gentlemanly and charitable, and has died leaving to his sons, partners with him in business, and to his family and friends, an untarnished reputation and a revered memory.

Thus has closed honorably sixty years of life, and forty-two years of activity in our own city, and few men who have resided in Bangor so long has done more for the city, or left a fairer record.

—The meeting of the Temperance Alliance last evening was not, on account of the very bad condition of the streets and the holding of several public meetings, as fully attended as usual. The meeting was forcibly and eloquently addressed by several speakers, among them were Rev. Mr Woodhall, J C White, Esq., President of the Alliance; M. V. B Pipes, Esq., who nominated Gen U. S. Grant as the Temperance candidate for President for the next term; A L Simpson, Esq., Mr. S. Baker, Capt. Archer and Capt. Phillips.

Dr G W Lunt being called upon, remarked that he was not prepared to speak at the time, as he ... the course for himself in this movement, and ... confidence ...

—The ... Veazie ... Vestry this (Wednesday) afternoon at 3 o'clock. All are invited to attend

—The dispatch in the Times yesterday, announcing the election of a Democratic Mayor in Portland, on Monday last, was erroneous. The Portland election occurred several weeks since, at which Mr Stevens Republican, was re elected Mayor

—In the Police Court yesterday, Charles Belcher and William Montgomery were up on two complaints—one for larceny from the person of Fred Jenkins, and the other for drunkenness and disturbance of the peace—In the first complaint they were bound over in the sum of $800 each, and on the second were convicted and fined $9,00 and costs—Appealed. The same parties are also held under bonds to appear before the Police Court on Friday on a charge of assaulting a police officer. Belcher, while ostensibly awaiting the arrival of some friend to supply the surety, concluded to make himself scarce and go his own bail, which he did by making tracks. He is doubtless secreted somewhere in the city

IN THE FAR WEST. Charles L Crane, late of the Penobscot River Express, has taken up his residence at Omaha, late of Nebraska, where he expects to remain for some time. Mr Crane has been long and favorably known to the people on the Penobscot as a faithful, energetic express messenger, and he will carry with him to his new home in the far West the good wishes of hosts of friends.

THE EAGLE PENCILS Probably the best pencil in the market, either for drawing or common use,—the best that we have ever tried at least—is the famous "Eagle Pencil," patented in 1860, and manufactured in Furth, Bavaria, by Messrs Berolzheimer, Illfelder & Co. Their house in this country is at No 60 John street, New York, and their goods are sold in all parts of the Union. The Eagle Pencil is a beautiful article to use—moving with the utmost freedom and smoothness, insomuch that it is a pleasure, rather than a labor to write with them. We can even feel in good temper with such a pencil, when recording the result of the Connecticut election. They appear to be entirely free from grit, and have a uniform character in touch and power beyond any that we have heretofore used. They are of various kinds and qualities to suit the work required—some with different lead at each end for convenience in drawing and shading, and some fitted with rubber for erasing. Wooden pencils are now so largely used for ordinary writing that every one likes to know how to get a good article. There are cheaper ones in the market—but to be sure of a good one it is safe to ask for the Eagle. Mr John Newman, General Agent for the manufacturers, is now in this city

—At the annual meeting of the Union Insurance Company held at their office on the 18th ult, the following persons were chosen Directors for the ensuing year:—Samuel Veazie, S F Hersey, A M Roberts, W H Smith, Wm McGilvery, H E. Prentiss, George Stetson, Franklin Muzzy, Arad Thompson, J S Chadwick, Isaiah Stetson, A D Manson, F M Sabine, John A Peters, E G Dunn, T J. Stewart, Lemuel Bradford, James Littlefield, N C Ayer, J W Freese, and at a meeting of the Directors, April 1st, the following officers were elected—George Stetson, President and Treasurer, John S Chadwick, Secretary, R R Fuller, Assistant Secretary.

E & N A RAILWAY Engineers commenced the survey and location of the road beyond Milford yesterday, preparatory to subletting the same for immediate construction. The survey will follow very nearly the former one, much of which is graded for many miles

—The Kennebec Journal says there are now at the U S Military Asylum at Togus Springs, between one and two hundred inmates, and a company of forty or fifty men will shortly reach there from Pennsylvania, and it is expected that the Asylum will soon have all its rooms fully occupied. All the inmates seem highly pleased with their accommodations and treatment. Many of them say that it is the best home they ever had—Mr Long, the Chaplain, who has a heart in the right place, and kindly sympathies for all disabled soldiers, has awakened quite an interest in the soldiers on the subject of education, and they are making progress in their studies. It is well for Christian philanthropists to take an active interest in these men, brought together through patriotism and suffering. The government of the United States is doing well for them in providing a good home, but they need social sympathy—they need books, pamphlets, pictures and newspapers. They need kindly visits and the hand of friendship and the word of cheer

FIRE IN BRADLEY. We learn from Mr Morse, of the Bradley Express, that on Monday evening the shingle and lath mill at the mouth of the Great Works stream, in Bradley, owned by Nehemiah Kittredge, Esq., of this city, was entirely destroyed by fire. It was caused by friction in the machinery. Loss about $8000. Partially insured

A NARROW ESCAPE The long and heavy Masonic sign of Pacific Lodge, at Dexter, fell yesterday from the building, a distance of nearly thirty feet, and struck an old gentleman by the name of Jacob Chamberlain on the head, and, what seems miraculous, he escaped without injury, though instantly crushed to the platform in front of the store below.

—The total present liabilities of the city of Portland on account of the Grand Trunk Railroad, (formerly the Atlantic & St Lawrence) is $922,000, as stated by a writer in the Press. It is now proposed to loan the credit of the city for $700,000 more to the Portland & Rochester road. Portland people spare neither their own money nor the city's credit when any public movement is proposed for the general benefit. It doesn't take long to raise funds there for any railroad or manufacturing enterprise.

—At Benton, on the Sebasticook river, there is a water privilege of one thousand horse-power if desired, and unaffected by the drought of summer. Crosby & Walker keep 5 men employed in a lumber mill there, and used last season 200,000 feet of logs, worked clean up to the bark, turning out 1,600,000 pieces of brush work, besides other lumber.

—The Calais Advertiser says that custom house officers Thompson of Baring, Foss of Milltown and Murphy of Calais are keeping a sharp lookout for smugglers these times. They seized, the past week, two horses and pungs with a quantity of tobacco and liquor, amounting to $421.

—We learn from the Clarion that Mrs. ... widow of the late Israel Folsom of ... was found dead in her bed on the morning of the ... She was an old lady of 70 ...

—The Clarion says the logging teams are making their appearance from the swamp. It has been a good winter for operating, and a large amount of lumber has been got in.

—Mr J. S McCurdy of Gardiner, who has lately patented a spoon, has sold the English right for £6000 in gold, with a royalty added. Ingenuity sometimes gets its reward

—The Bath Times says Mr Dunton, the popular principal of the Bath High School, is about to leave that city to take charge of a school in South Boston

—In Portland last Sunday, during service at the Chestnut St. church, a boy was taken with a convulsive fit and had to be carried out.

—Mr John E Weston has been appointed postmaster at Madison, in place of W B Snow, resigned

—There is to be 47 feet added to the wood and paint shop of the State Prison

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's seaweed tonic dissolves this mucus or slime, and restores the stomach to its natural condition

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach, the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely thro' the blood when the system is in this locked-up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all of the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from the thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption

DR. SCHENCK will be professionally at his rooms every week, 32 Bond Street, New York, and 35 Hanover Street, Boston, from 9 A. M. until 3 P M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic each $1 50 per bottle or $7.50 the half dozen. Mandrake Pills 25 cents per box

GEO. C. GOODWIN & CO, 38 Hanover street, Agents for Boston. For sale by all druggists.

nov 9 en eothw d ly

Dr. Schenck, the Lung Doctor.

The Proprietor of SCHENCK'S PULMONIC SYRUP, the inventor of SCHENCK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs

This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consumption, and whether it is both lungs or only one that are diseased

It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone when by a close examination with the Respirometer it is often found that it is an affection of the bronchial tube, and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough, is certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage flows, and, in fact, stopping the action of the very organs that caused the cough

Dr Schenck will be professionally at his rooms every week, 32 Broad Street, New York and 35 Hanover street, Boston, from 9 A. M until 3 P M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also, a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box. GEO C GOODWIN & CO, 38 Hanover street, Agents for Boston. For sale by all druggists

DR. SCHENCK'S

NEW OFFICE.

DR. J H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer, but by it he can tell exactly how far the lungs are gone, and what part also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough it is best to see him. All three of his medicines are required in nearly every case of lung disease for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get lungs in a healing condition the stomach must be cleansed and an appetite for good rich food created, so as to make good blood before the lungs will begin to heal, then the chills and night sweats will stop and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1,50 per bottle, or $7,50 the half dozen. Mandrake Pills, 25 cents a box.

FOURTH COLLECTION DISTRICT OF MAINE. Assessor's Office, Oldtown, March 19, 1867.

NOTICE IS HEREBY GIVEN, That at the office of the Assessor of said district in Oldtown, in the County of Penobscot, on THURSDAY the 18th day of April, A. D. 1867, at nine of the clock in the forenoon, appeals will be received and determined by me, the undersigned, relative to any erroneous or excessive valuations assessments or enumerations, by the Assessor of said District, or by the Assistant Assessor of any Division or Assessment District within said Fourth Collection District, returned in the annual list for the year 1867.

The law prescribing the duty of Assessors in relation to appeals, provides that "All appeals to the Assessor shall be made in writing, and shall specify the particular cause, matter, or thing respecting which a decision is requested, and shall state the ground or principle of error complained of."

GEORGE P. SEWALL, Assessor 4th Dist. of Maine.

DR. JENNINGS,

OCULIST AND AURIST,

HAVING met with eminent success in his practice in Fall River and New Bedford, for over two years, in removing Cataracts, Ulcers, Inflammation, and other diseases from the eye—in restoring hearing, &c., has taken Rooms Nos. 28 and 30 at the Bangor House, where he will be happy to render his professional services to all those afflicted with the above complaints. As he brings undoubted proofs of his ability to perform whatever he advertises, the public can depend that he will not take any one under his care or practice without benefiting or curing

Below are a few of the numerous certificates he is constantly receiving

DR JENNINGS—*Dear Sir*:—For the benefit of others, I wish to state, that some sixteen months since, Mrs. Thurston received an injury in the eye which caused an obstinate inflammation, much suffering, impaired the sight, and feared might destroy it altogether. We employed various remedies, consulted a distinguished Oculist, of Boston, but all without permanent relief. A few weeks ago we consulted you, and by your treatment the inflammation has been reduced the pain relieved, the sight restored, with every present prospect of a permanent cure. We have every reason to think and speak well of your treatment in the case

REV R. THURSTON.

Fall River, Sept. 18, 1865.

P S. Any reference to me, I shall be most happy to answer by mail or otherwise

State of Mass, Bristol Co Fall River.

I take this method of expressing my gratitude to Dr. J M Jennings for his successful treatment in the case of my daughter, whose eyes had been afflicted for five years, so much so they had become ulcerated also the formation of cataracts upon both the eyes, which had nearly destroyed her sight, she had been under the treatment of others, who had failed to help her. It is now five years since she commenced the treatment, and in six months was entirely cured. I would cheerfully recommend him to all thus afflicted. WM. V HUNTSMAN.

Fall River, August 2d, 1865

This may certify that I am acquainted with Dr Jennings and his system of treating deafness and loss of eye sight. I am using his remedies for deafness. So far as I have seen the benefit resulting from those who have been under his treatment I feel no hesitation in recommending it to those who are suffering from the above diseases. DR I FISKE.

To DR JENNINGS, Room 35 Parker House

For the benefit of others—I wish to state that less than three weeks ago my daughter could scarcely see to read at all was troubled with noises in her head, and was dull of hearing for a long time has been troubled with a bad humor in and about her head, also subject to the headache for years. I called on Dr Jennings at the Parker House he said he could help her, and commenced treatment. The improvement in her case has been great, much more than I could have expected, in so short a time. She can now see to read the finest print, her hearing is better and her humor is fast disappearing, and she has been entirely cured of the head ache

The afflicted should not fail to see,

The man who has done so much for me

A LOT OF GOOD LAND

FOR FARMING,

Is offered for sale on the Stillwater Avenue, about two miles out. 22 acres of the land lies on the North side of the Avenue, and rises with a gentle ascent Northerly. This part of the land is peculiarly favorable for an Orchard, having a Southerly descent, and will be warranted good for that use. This lot was selected from several hundred acres for special use, and has a spring of water on the upper side of the road. I have known of no land offered for sale within double the distance from Broadway. The land on either side can be sold separately or sold all together.

There will be about fifty three acres for sale.

Please call at No. 25 Centre street for further information.

PATIENCE.

Why should we murmur, though the storm
Is all around us raging?
Though angry clouds the sky deform
Like battle hosts engaging?
An unseen hand the storm-king guides
As on the wintry wind he rides,—
And up above the tempest lines
The sun in all his glory shines.

Why should we murmur though the ills
Of life around us hover?
Though through the gloom that Nature fills
No light we can discover?
The arm that guides the tempest-king
Shall bear us through all suffering;
And gently land us on the shore,
Where sin and death are known no more.

The wintry storm the earth prepares
For verdure bright and vernal;
So oftentimes our wearying cares
Fit us for joys supernal.
Then murmur not though griefs befall.
With patient heart endure them all—
Keep but the journey's end in view,
And God shall lead thee safely through.

QUESTIONS.

Dear little Freddie, with eyes full of fun,
Sits by the fire when the daylight is done,
Asking such questions as often before
Puzzled the wits of the wise ones of yore;
Weighing my answers, so doubtful and slow;
Spoiling my logic with "How do you know?"

How do the swallows, that fly in the sun,
Tell when the beautiful summer is done?
How do they find out the path in the air
Straight to a land where the sunshine is fair?
Where does the wind in its wanderings go?
Where does it come from, and how do you know?

Dear little Freddie! the thoughtful and true,
Reading such riddles, have wondered with you;
Many a secret no tongue can unfold,
Hid from our wisdom, the universe holds,
Wisest philosophers dwelling below,
Never can answer your "how do you know?"

Description of the Sub-Treasury in New York.

The vaults of the United States Sub-Treasury are said to exceed in strength those of the Bank of England. The strong and thoroughly fire and burglar proof manner in which they have been constructed excites the admiration of all beholders. There are two of these immense vaults, one at each corner of the Pine street end of the Rotunda. The rooms are perhaps twenty feet long by fifteen wide, and ten or twelve feet high. They contain no windows; there is but one door opening into each, and gas lights are kept burning inside. The internal appearance of these vaults has a striking resemblance to a fashionable tomb in Greenwood cemetery, rows of cases being arranged around the sides of the room, each about two feet square, with iron door attached. There is one door on each case, and when the apartment has been filled with bags of gold or bundles of greenbacks the doors are closed. Each case will contain half a million of dollars, put up in bags of five thousand dollars each. When a case is thus filled the door is closed, and a seal is affixed in the presence of the Naval Officer and Surveyor of the port. It takes one hundred bags to hold half a million of dollars. In the first vault entered there were seventy-two compartments arranged round the room, which formed a tier somewhat higher than a man's head.

Running over the top of these was a balcony with an iron railing in front; there was piled up in this balcony, in one heap, six millions of dollars in five and ten dollar bills; one half million of dollars in internal revenue stamps, fifty thousand dollars in fractional currency, put up in large paper boxes, and five and one half millions in United States bonds.

The floor of this vault rests on thirty feet of solid masonry from the ground up; on the top of this granite there are two feet of wrought iron, and between the iron plates a space filled up with bullets. If a rogue should succeed in boring through the granite and iron, the moment his drill touched a bullet that would commence to revolve, and by the time he had penetrated it, another ball would drop in its place; in this way he would soon find that he had an endless job before him, and the attempt to get into the vault would have to be abandoned.

The sides and top of the room are composed of eight feet of granite and two of iron, arranged in the same manner as for the floor.

This safe as it is called, was invented by Geo. R. Jackson, of the Excelsior Iron Works. Mr. Rogers once remarked that if the people of the treasury department should happen to get locked out of the safe, it would take him a month to break into it! A night watch is kept to look after these strong boxes, but they are considered perfectly safe without him.

There are four doors to be opened, one after the other, before we enter the safe. Each one of these doors weighs two tons, and contains two locks of different patterns. A lever is so arranged that after the doors are closed four large iron bolts are thrown across the doorway, resting in sockets which have been made in a pillar of wrought iron. If a thief should succeed in cutting the hinges of one of those doors, usually considered to be the vulnerable point, the door would not drop down from its place, and nothing would be gained. But like the deacon's celebrated one-horse shay, these doors are made as strong in one part as in another, and the hinges show no sign of weakness. It would take a fearful earthquake to shake them down.

No good idea can be given to the reader of the locks and their operations, but a few general remarks may be of interest. The first door has one of Dodd's Eureka locks; there is no key hole for this, and the outside combination wheel is divided into the letters of the alphabet, the nine units, and fractions of figures. The combinations which may be made by this arrangement are endless, and no one can open the lock, by shoving back the bolts, unless knowing the words, figures, and fractions which have been used in locking the door. Even if a person was so fortunate as to get from Mr Birdsall the combination, he must have an extensive acquaintance with the lock to know how to manipulate it correctly. The second door contains an Isham lock, which is altogether different from Dodd's lock. The third door has L. Gale's Monitor lock, and the fourth door contains Gale's Treasury locks. From one of these doors, after it has been fastened, a portion of the lock is taken off, and put under lock and key in some secret place. Without this it would be useless to attempt to get into the safe.

The second vault is much larger than the first one described, but just as difficult to get into. There are one hundred and twenty cases in this room, where gold can be put up. At the time we looked into the vault there were ninety tons, or forty-five millions of dollars in gold stored in the room, and twenty millions in paper. The greenbacks, as they are paid into the treasury, are put up in packages of one thousand bills all of the same denomination.

A Fancy Dress Ball in Hungary.

On the 3d of March the young Hungarian nobles gave a 'bachelors' ball' in Pesth, which was announced as 'A Fool's Evening, given by the Committee of Folly.' A correspondent describes the scene thus:

'Although more than five thousand persons were congregated together, many of them in costumes which took up an unusual amount of space—one gentleman, for instance, was accoutred cap-a-pied in gilt spiked armor, which glittered so brightly in the gaslight that he looked like a cross between [illegible] for a moment. On arriving at the foot of the grand staircase leading up to the hall we were received by the members of the committee, attired as fox hunters, and adorned with supplementary noses that blushed a [illegible]. On the broad landing outside the hall was stationed a band of honor, which greeted us with a hideous braying of trumpets and thumping of drums. This orchestra was composed of ten trumpets, eight drums and one violin. Before entering the great hall we were each presented with an emblem of Folly, which [illegible]

[illegible] all the Sydenham antediluvians, with a [illegible] is composed of the wild beasts [illegible] from the chalk and paste-board dens. The veriest stoic must have laughed himself sore, as I did, to watch the carnivora performing on their several instruments. An elephant diligently blowing a flute under his trunk is not an every-day sight; nor a tiger tapping the triangle—but these are amongst the most accomplished celebrities at Pesth—and I could not weary of admiring a fat old lion, with his tail across his knee, diligently playing the violoncello. The first violin was a kangaroo, 'more naturaller than life;' a pelican had a French horn inserted in the side of his bill; a gray bullock administered the kettledrums; and the chief d'orchestre was a huge gorilla, of a hideousness quite unequalled in the illustrations to Du Chaillu.

'Across the room, from one gallery to another, was fixed a tightrope, upon which a mechanical Blondin went through the traditional feats. Having made friends with an enormous spider and a lively young sturgeon, I accompanied them to another large room, in which was held the annual universal exhibition of the society, a guide to which had been presented to me on my arrival.

'Some of the objects exhibited were eminently eccentric. For instance a collection of cigar ends, each endowed with historical interest, mitrailles that dropped by Menelaus when he received the news of Helen's flight with Paris.'

'At twelve o'clock a solemn procession of eight hundred Fools headed by both bands, took place, and I humbly hope that my ears may never again be outraged by such an abominable charivari as prevailed during this ceremony. Greenwich Fair gone mad, a Turkish regimental band, the Chinese Feast of Lantern, and a British election riot might perhaps, if thoroughly well mixed, produce something like the sound that shook the Redouten Saal at the hour of midnight on Sunday last. Every member of the profession—in which I am glad to say my sturgeon and my spider occupied honorable positions—contributed by some diabolical device to the hideous noise. Gongs, tomtoms, penny whistles, ship-bells, fog-horns, every description of clamorous contrivance was brought to bear on the general effect. As for hearing one's own voice, one might as well have been inside Vesuvius during an eruption.'—[N. Y. Post.

AN IMPORTANT INVENTION IN SHOEMAKING. The Commercial Bulletin says:

Mr. M. R. Ethridge, of Locke's Mills (Maine,) has recently obtained a patent for an invention which seems likely to work a revolution in the manufacture of boots and shoes. This process, which has been thoroughly tested, enables the manufacturer to dispense with the use of sole-leather altogether. The peculiarities of this invention consist of a wooden sole lasted into a 'box welt,' and covering a cushion of hair, such as is used in upholstery; of a water-proof composition, deposited between two continuous welts, and of a metal plate, covering the entire external surface of the sole, and perforated with circular apertures—these latter being filled with gutta-percha cement. The desiderata which seem to be secured by this process, are durability, imperviousness to water and economy of cost. The last which is used in the process, unlike ordinary lasts, is concave in shape, the cushion alluded to above, taking the place of convexity in other lasts. This form and the use of the cushion effect a perfect fit of the boot to the foot of the wearer, his weight pressing the foot into a natural and easy position, which the unyielding wooden sole renders unchangeable. One of the most important points of difference between boots made by this and those made by the usual mode, is in the protection from dampness secured to the feet. The soles of ordinary boots being flexible, the upper leather which covers the instep, with each motion of the foot acts like a pump, drawing in moisture and rendering the stocking wet and uncomfortable. The stiffness of the wooden sole prevents this suction, and the top of the foot is thus kept dry. As to the sole, it seems to be a physical impossibility for moisture to penetrate it; the wooden sole being surrounded by double welts, which are cemented to it, and the sole itself being thickly covered with gutta percha cement. The wear of the boot all comes upon the metallic plate of malleable iron, which covers nine-tenths of the surface of the sole. This plate is readily adjustable by any one. These boots are specially intended for miners, farmers and others engaged in rough work. Many individuals have worn them ten months, and found that they show no signs of decay. Lighter boots, of calf-skin, are made on the same principle, and combining the same excellencies. These boots are now being manufactured by Ethridge, Crocker & Co., at Locke's Mills, who propose to enlarge their scale of operations immediately. [Boots that will not wear out cannot long be popular with the trade.]

MISERIES OF TIGHT-LACING. The Northwestern Christian Advocate makes out a case against tight-lacing, as follows:

While we are growing very sensible indeed in the matter of dress, in the way of boots, balmoral skirts, warm stockings and high necks, we are degenerating in some other matters quite as important. The corset is not a necessary part of a woman's wardrobe, and, alas! when a woman does begin to wear corsets, she will wear them too small, and will tug at the laces till the breath becomes short, and she feels it necessary to refrain from anything like a comfortable meal. We say nothing against a well shaped corset, worn loosely, but there lies the difficulty. A loose corset injures the appearance, instead of improving it, and people wear corsets that they may have small waists. All we can say is, don't squeeze, whatever you do. You may have small waists, but you are exposing yourself to a dozen misfortunes which are as bad as a large waist. First, you will surely have dyspepsia, and grow yellow and cross, and unhappy; secondly, your hands will grow red; thirdly, your nose; fourthly, you will be unable to walk a mile at once; fifthly, dinner will be a misery; sixthly your shoulder blade will increase in size and altitude; seventhly, your eyes will grow weak; eighthly, you will break down at thirty, or thereabouts, and be a sickly old woman from that time forth. If these truths do not frighten women from tight corsets, perhaps the information that gentlemen do not like what dressmakers call a 'pretty figure,' so much as a natural one, may have some influence.

The origin of the portrait for the Goddess of Liberty upon our coins, is of great interest. Mr Spencer, the inventor of Spencer's lathe, used by the American Bank Note Company, was the artist who cut the first die for our American coin. He cut an exact medallion of Mrs. Washington, the wife of Gen. Washington, and the first few coin were struck off with her portrait. When Washington saw them he was displeased, and requested the figure to be removed. Mr. Spencer altered the features a little, and putting a cap upon its head, called it the Goddess of Liberty.

A LOVE STORY. When Marshal Bazaine left the city of Mexico, with the French army, his nephew Lieutenant Adolphe Bazaine, was about to be married to a beautiful Mexican signorita. In the hurry of their departure, however it was not found convenient to celebrate the nuptials. It was, therefore, arranged that the young lady should follow her lover to Orizaba, and that the wedding should take place there. Meanwhile the Liberals closed in upon the retiring French troops and occupied the whole country, stopping the mails and travel. This was a sad state of things, but nothing is impossible to a true lover. Armed with a passport, which stated the object of his retrograde journey, the young Lieutenant started out alone for the city of Mexico, passed through the Liberal army and hundreds of bands of banditti, which chivalrously opened right and left to let him pass, and brought his bride safely to France.

AN EXTRAVAGANT YOUNG PERSON. An under-graduate at Oxford University, named [illegible]

[illegible] and two caps' also, 'a rose-colored satin ditto, cloak, pair of trunks, train, pair of boots, and most expensively trimmed and jewelled;' and 'a white satin loose tunic embroidered with silver jewelled belt,' &c.

THE GREAT BRIDGE AT ST. LOUIS. The Springfield (Illinois) correspondent of the Chicago Times gives some interesting particulars concerning the great bridge which is to connect St. Louis with Illinois. He says:

The entire length of the bridge will be 2,700 feet. The lowest part of the main span or bottom cord will not be less than fifty feet above the city directrix (indicating the highest water mark) at the greatest span. There will be two spans over the main steamboat channel of 350 feet each in the clear, not including the abutments. The remainder of the spans over the main river will not be less than 200 feet each, and probably will be 250 feet each. There will be two spans from the Missouri shore of the river over the levee; and it will probably be found necessary to bridge at least two streets besides the above on the St. Louis side before coming to a level grade. A portion of the slough on the Illinois side will also be bridged. The total length of the bridge over the main channel of the river will be about 1,000 feet. The total length of bridging over the streets in St. Louis and over the slough on the Illinois shore will be about 700 feet—thus making the entire length of the bridge, as above stated, about 2,700. The superstructure will be built of iron, and on Post's patent plan. The roadway will consist of two double-track carriage ways and one single-track railway, with tracks on the latter to accommodate the different guages of the railroads centering at St. Louis. The rail-road track will run between the two carriage tracks—the latter at the ends passing under the railway, which will run over them on bridges, thus keeping the carriage and railway tracks from all interference with each other, which is equivalent to a single-track bridge 8,000 feet long. In addition to the carriage and the railway tracks, there will be two side-walks, six feet wide each, one at each side of the bridge. The masonry will be of the most substantial and massive character and description. The main piers will be from 120 to 130 feet high from the foundations. The foundation will be very expensive, and it may be found necessary to use pneumatic piles; but it is hoped that the ordinary piles will be firmly driven, sawed off at the bed of the river or top of foundation, and the masonry lowered in iron caissons to its place. The approximate cost of the entire structure, it is estimated, will be about $5,000,000, although this cannot be determined until a thorough examination is made of the bed of the river.

SAMUEL SLATTER ON EXTRAVAGANCE. Mr. Samuel Slatter's habits of living were often the topic of remark among his townsmen. On a certain occasion this subject was made the staple of quite an interesting conversation between himself and a few of his intimate friends, when he was a little more than fifty years of age, and estimated to be worth half a million of dollars. It was in the front room of the bank, where they were accustomed to meet and discuss all sorts of things of interest. At that time he lived in an old wooden house which might have cost two or three thousand dollars—decent and comfortable, it is true, and much like the better sort of houses in the village, excepting perhaps half a dozen. He also owned a good horse and chaise, the common pleasure vehicle at that period in many parts of New England. His friends told him it was not right for a man of his property to live in that style—that he ought to build a better house and keep a coach.

Mr. Slatter replied much in the following manner: 'Gentlemen, I admit that I am able to have a large and costly house, rich furniture, and servants to take care of it; that I am able to have a coach, with a driver and footman to attend me. And it is not that I am miserly that I do not have them. But it is a duty in me to set an example of prudence to others, and especially to my children. The world is too inclined to extravagance. If the style you recommend is to be considered an evidence of wealth, and I were on that account to adopt it, others not able might follow my example, in order to be thought rich. In the end it might prove their ruin, while prudent and honest people would have to suffer for it. And you know I have six boys. If they live and have families, each will want to live in as much style as his father. Now, if I am able to live as you recommend, my property, when divided into six parts, might not be sufficient to support six such establishments; besides, business may not continue as good as it is at present. I wish to set a good example for my children. If they do not follow it, the fault is not mine.'

WAS HE A BOSTON MAN? A countryman lately visiting the Music Hall in Boston, was somewhat interested in the counterpart of Beethoven that stands before the organ, and eventually inquired,—

'Is that statoo gilt?'

'No, sir, bronze,' was the response.

'Brunze, hey? Must cost considerable. Who is the statoo of?'

'Beethoven,' said the gentleman, beginning to be amused.

'B. Thoven hey?' and then reflectively, with the impression of the statute B. Franklin fresh in his mind—'Was he a Bosting man?'

Real estate is so high in some parts of London that the purchaser has now almost literally to cover it with gold to purchase it. In important business centres in that city the sites for recently erected buildings have cost nearly £700 the square yard, or not far from £75 per square foot. This is at the rate of more than £3,000,000 per acre; and as a London paper computes, it takes 7,120,000 sovereigns, lying close and flat, to cover an acre, so that the price of an acre would give it an unbroken layer of gold of about one-third the thickness of a sovereign. Everybody except real estate owners supposes that the price will some day cease to rise, but the point is not yet in sight.

ST. XAVIER'S CONVENT
OF THE
SISTERS OF MERCY,
BANGOR, MAINE.

THIS Spacious and Beautiful Institution is located in a very healthful part of one of the first and most populous cities of the State. It offers superior attractions to parents desirous of giving their children a solid and refined education. They may be assured that every necessary attention will be paid to the health and comfort of the pupils. The utmost care will be taken to cultivate their moral and religious principles which alone render education profitable in after life.

The educational course comprises every useful and ornamental branch suitable for Young Ladies. Difference of Religion will not be regarded in the admission of pupils who are willing to conform to the general regulations.

The Scholastic Year is divided into two sessions, the first of which commences on the FIRST MONDAY OF SEPTEMBER. No entrance fees.

Hartford, November 30, 1866.

STATE OF CONNECTICUT, Hartford County, } ss. HARTFORD, November 30, 1866.

Personally appeared before me, Henry Fowler, a Justice of the Peace, duly qualified to administer oaths, Lucius J. Hendee, President, and Jotham Goodnow, Secretary, and made solemn oath that the foregoing statement of the Assets and condition of the Etna Insurance Company is true.

HENRY FOWLER, Justice of the Peace.

B. PLUMMER & SONS, Agents.

STATEMENT OF THE CONDITION OF THE
International Insurance Co.,
OF NEW YORK,
On the thirty-first day of October, 1866, in accordance with the Laws of Maine.

The name of the Company is the "INTERNATIONAL INSURANCE COMPANY." It is located in the city of New York, and was incorporated Jan. 4, 1864. The amount of the Capital Stock is one Million Dollars, and is all paid up.

The Assets of the Company are as follows:

Cash on hand and in hands of Agents and others,	$86,675 73
United States Five-Twenties, market value,	557,700 00
United States Seven-Thirties, market value,	265,000 00
United States Ten-Forties market value,	100,253 00
Tennessee and Virginia War Bonds,	20,400 00
[illegible]	52,000 00
[illegible]	110,086 00
[illegible]	180,349 00
[illegible]	[illegible]

[illegible]

by president report for the construction, occupancy and exposure of risks. The Act of Incorporation is herewith.

STATE OF NEW YORK, County of New York, November 1st, 1866. }

Charles Taylor, President, and C. C. Hine, Secretary of the INTERNATIONAL INSURANCE COMPANY, to me personally known, depose and say that they are said officers, and that the foregoing is a true, full and correct statement of the affairs of said Company on the thirty-first day of October, 1866; that said Company is the bona fide owner of One Million Dollars, Cash Capital, and Four Hundred and Sixty Thousand and Six Dollars and Twenty-Four Cents, Cash Surplus, invested as above, all of which is the absolute property of said Company, free and clear from all liens and claims thereon, except as above stated (and as may be necessary for a re-insurance fund,) according to the best of their knowledge, information and belief respectively. CHARLES TAYLOR, President. C. C. HINE, Secretary.

Sworn to and subscribed, the date last above written, before me. CHARLES NETTLETON, Commissioner for the State of Maine.

B. Plummer & Sons, Ag'ts.

THE ONLY REMEDY KNOWN FOR

DIABETES,

STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICK DUST DEPOSIT, AND MUCOUS OR MILKY DISCHARGES AFTER URINATING.

IRRITATION OF THE NECK OF THE BLADDER, INFLAMMATION OF THE KIDNEYS CATARRH OF THE BLADDER.

STRANGUARY AND BURNING OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips. A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS

Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER

Has proved itself equal to the task that has devolved upon it

DIURETICS

irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful in curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

STROUDSBURG, PA., Jan 20, 1866.

DR. GREGG:

Dear Sir:—I wish to inform you that I have been under the treatment of some of our best physicians for nearly two years, without receiving any benefit. I had lost all confidence, and I indulged in but little hope of a cure from any source. My disease was Dropsy, and my physicians told me that there was no cure for me. I was tapped some fifty times, and at the different operations about 1200 pounds of water was removed.

I am happy to inform you that I have been completely restored to health by the use of Constitution Water.

I make this statement hoping it may reach those persons who may be similarly afflicted.

Respectfully,
MRS. MARGILL C. LEVANWAY.

IN DYSMENORRHEA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA; OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides and at times accompanied by sharp, lancinating or shooting pains through the parts, will, in all cases be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease or the disease the symptoms. We can only enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude, and Dimness of Vision.

READ! READ!! READ!!!

DANVILLE, PA., June, 1862.—*Dr. William H. Gregg*—*Dear Sir:*—In February, 1861, I was afflicted with sugar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured soon after regaining my usual good health.

Yours truly, J. V. L. DE WITT.

BURTON CORNERS, N. Y., Dec. 27, 1864.—*Wm. H. Gregg & Co.*—*Gents:*—I freely give you liberty to make use of the following certificate of the value of the Constitution Water, which I can recommend in the highest manner:—My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with *palpitation of the heart and irritation of the bladder.* I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could find, who attended her for about nine months; and while she was under his care she did not suffer quite as much pain. He finally gave her up, and said "*her case was incurable.*" "*For,*" said he, "*she has such a combination of complaints that medicine given for one operates against some other of her difficulties.*" About this time she commenced to use the Constitution Water and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

WM. M. VAN BEUSCHOTEN.

WEATHERSFIELD, Conn., March 2, 1863.—*Dr. W. H. Gregg*—*Dear Sir:*—Having seen your advertisement of "Constitution Water," recommended for Inflammation of the Kidneys and Irritation of the Bladder, having suffered for the past three years and tried the skill of a number of physicians with only temporary relief, I was induced to try you medicine. I procured one bottle of your agents at Hartford, Messrs. Lee, Sisson & Co., and when I had used half of it, to my surprise, I found a great change in my health. I have used two bottles of it, and am where I never expected to be in my life, well, and in good spirits. I cannot express my gratitude for it; I feel that it is all and more than you recommended it to be. May the blessing of God ever attend you in your labors of love.

Yours truly, LEONARD S. BIGLOW.

NEW HOTEL IN DEXTER.

"MERCHANTS' EXCHANGE."

We have this day opened a new and elegant Public House in Dexter. This Hotel is a large, new, three story building, situated in the most central part of the village, is just completed at great expense, thoroughly finished with all the modern improvements, has 35 rooms all furnished with new and choice furniture, some of them suits of rooms to accommodate families. There is a Livery Stable attached, where excellent teams can be had at all times. We intend to spare no pains to please the public, and to make the "Merchants' Exchange" a first class house in every respect, and respectfully solicit public patronage.

NEW [illegible]

SOLDIERS who have served THREE YEARS or their widows or heirs, are entitled to

$100 Additional Bounty,

And Soldiers who have served TWO YEARS, their widows or heirs, are entitled to an additional Bounty of $50. Increased Invalid Pensions of $15, $20, and $25 per month, according to the degree of disability.

Increased Pensions,
FOR WIDOWS.

All Widows drawing Pensions are now entitled to an increase of two dollars per month for each child under sixteen years of age.

Three Months Pay Proper!

Officers who were in the service, March 3, 1865, and were honorably discharged after April 9, 1865, are entitled to 3 months pay proper.

All persons having claims under the above law, should make application at once, in person or by letter, at the old and reliable War Claim Agency of

Perkins & Stevens,
NO. 1 MAIN STREET,
BANGOR, MAINE.

N. B.—They refer to the thousands of claimants whose claims they have prosecuted in a prompt and satisfactory manner. aug 2.

Pensions!---Bounty!
(NEW LAW!)

Important to all Soldiers!

PENSIONS INCREASED.

I AM AUTHORIZED, BY LAW, TO OBTAIN an INCREASE of Pension from

$8 to $15 Per Month

For every Soldier who lost a hand or foot in the army, or who is disabled by wounds or sickness equal to the loss of a hand or foot.

Also—An INCREASE OF PENSION to certain classes, and for dependent fathers and children. Full information given by calling on the subscriber.

BOUNTIES EQUALIZED!

This Law has passed the House and will become a law in a few days—when all the early soldiers of the war, and their widows and heirs, shall have their just dues.

Apply early, either in person or by letter at the OLD WAR CLAIM AGENCY of

C. P. BROWN,

June 18th, 1866.—d&wtf BANGOR.

Special Notice
To Soldiers and Seamen!!

The Law Has Passed!

Bounties Equalized.

Justice Done the Early Soldiers and Seamen of the War, their Widows and Heirs.

NOTICE has been sent me from Washington that the Law equalizing the bounty to Soldiers and Seamen was passed Saturday last, July 28, by Congress.

I am now authorized and prepared to collect this Bounty for every Soldier and Seaman entitled to it, or for their Widows and Heirs.

Application made personally at my office or by mail,—the discharge of the Soldier or Seaman should be handed in—as it must be forwarded with the application.

All applications must be made signed, witnessed and sworn to, AFTER THE PASSAGE OF THIS LAW. Many soldiers have been induced to sign papers before the law passed. This practice is irregular, fraudulent and void, and papers in such cases must be made

Soldiers and Seamen

Call early and get full particulars at the Old War Claim Agency of

C. P. BROWN,

July 30 BANGOR.

The New Bounty Law.

SAVE YOUR MONEY!

SOLDIERS AND THEIR HEIRS can get their New Bounty, given by an Act of Congress, July 28, 1866, by calling on the subscriber, a United States Special Agent, cheaper than at any other office in the State.

Daniel Sanborn,
U. S. AGENT.

THE
BEST COOKING STOVE,
IN THE MARKET,
"PEERLESS," FOR COAL OR WOOD.

THE "PEERLESS" has all the advantages of the popular stoves in use, together with such new features as justify the manufacturers in calling it the Best Cooking Stove in the market.

It is the "PEERLESS," because it is superior to all other Cooking Stoves in *Economy, Simplicity, Cleanliness, Baking, Roasting and Beauty.*

1st, ECONOMY. A patented method of heating the air and conveying it through the oven, saves from *twenty to thirty per cent. of fuel.*

2d, SIMPLICITY. It is easily managed. The fire can be perfectly controlled, and kept through an entire season without rekindling.

3d, CLEANLINESS. No dust escapes while shaking or dumping the grate.

4th, BAKING. Its large oven, wherein all parts are of equal temperature, bakes as evenly as a brick oven, and that without turning the article. It will bake upon the oven rack quickly. It will bake upon the oven rack equally evenly and well at the same time the oven bottom is fully employed in baking or roasting.

5th, ROASTING. A current of hot air constantly passing through the oven, so thoroughly ventilates it, that it roasts as well as a tin kitchen.

6th, BEAUTY. Made of the best iron, it will not crack. Well mounted, artistically designed and smoothly cast, it is the most beautiful as well as the most serviceable stove in the market.

Each stove is WARRANTED to be and to do all that is claimed for it.

PRATT & WENTWORTH, Manufacturers, Boston.

ALBERT NOYES & CO., Sole Agents in Bangor.
